EDUCATION

FEU – East Asia College, Manila – *BS Computer Science Major in Software Engineering*

MAY 2010 – APRIL 2014, Nicanor Reyes St., Sampaloc, Manila, Philippines

Accomplishments and applications developed:

- **Kaidoku: Japanese character image recognizer and translator Android mobile application**

An image processing mobile app that uses Tesseract Optical Character Recognition to recognize Japanese character from a raw image, convert it into a text data and translate the recognized text into English as my latest project.

- **Health Buff Assistant: health and fitness Android mobile application**

Developed using Android Development Tools as a thesis project by doing basic research, which improved my skills and techniques in Android and Java programming and in project managing
